Incorrect Question #	Why is my answer incorrect			Why is this the correct answer		
27	I thought the direct variation was $-u$ so I put the points $(0,0)$ & $(1,-4)$ but it was wrong			$(1,4)$ and $(0,0)$ because it has to make a line		
33	I didn't know how to solve this question			Set 3, set 1, set 2		
43	I didn't know how to solve this question			D		
44	I wasn't sure how to find the right answer, so I guessed			A because the length of the boxes is the same
