

# **Reading Passage: The Adventures of Space Cat(Science Fiction 1)**

In a faraway galaxy, there was a clever cat named Luna who lived on a spaceship. Luna loved exploring the stars and planets with her best friend, Astro the robot. One day, Luna and Astro received a special mission from Space Command. They had to find a rare, glowing crystal on Planet Zog to help power the spaceship.

Luna and Astro hopped into their spaceship and zoomed off into space. As they approached Planet Zog, they saw that it was covered in sparkling blue trees and shiny rocks. Luna used her special space map to find the location of the crystal.

When they landed, Luna and Astro saw a group of friendly aliens. The aliens had big, round eyes and tiny wings. They welcomed Luna and Astro and offered to help them find the crystal. Together, they walked through a glowing forest and over a sparkling river.

Suddenly, they found a cave filled with colorful crystals. Luna's whiskers twitched with excitement. She spotted the rare, glowing crystal they needed. But the cave was guarded by a gentle, giant spider named Silky.

Silky agreed to give them the crystal if they solved her riddle: "I shine in the night and guide your way. What am I?" Luna thought for a moment and then exclaimed, "A star!" Silky smiled and handed them the glowing crystal.

Luna and Astro thanked Silky and the friendly aliens. They returned to their spaceship and placed the crystal in the power core. The spaceship hummed with energy. Luna and Astro waved goodbye to Planet Zog and zoomed back to Space Command, ready for their next adventure.

## Multiple Choice Questions

1. Who is Luna's best friend?
  - a) Silky
  - b) A star
  - c) Astro the robot
  - d) The aliens
2. What special mission did Luna and Astro receive?
  - a) To find a glowing crystal on Planet Zog
  - b) To explore the moon
  - c) To visit the sun
  - d) To meet new aliens
3. What covered Planet Zog?
  - a) Tall buildings
  - b) Sparkling blue trees and shiny rocks
  - c) Oceans
  - d) Snow
4. Who did Luna and Astro meet on Planet Zog?
  - a) A group of robots
  - b) Friendly aliens
  - c) Silky the spider
  - d) Space Command
5. What did Luna use to find the location of the crystal?
  - a) A compass
  - b) A special space map
  - c) A telescope
  - d) A flashlight
6. What did Silky the spider ask Luna and Astro to solve?
  - a) A puzzle

- b) A game
  - c) A riddle
  - d) A math problem
7. What was the answer to Silky's riddle?
- a) The moon
  - b) A planet
  - c) A star
  - d) The sun
8. What did the cave on Planet Zog contain?
- a) Gold and jewels
  - b) Colorful crystals
  - c) Waterfalls
  - d) Old books
9. What did Luna and Astro do with the glowing crystal?
- a) Made jewelry
  - b) Gave it to the aliens
  - c) Placed it in the power core of the spaceship
  - d) Took it back to Earth
10. How did Luna and Astro feel when they found the crystal?
- a) Sad
  - b) Angry
  - c) Excited
  - d) Tired

## Answers and Explanations

1. **c) Astro the robot**

Explanation: Luna's best friend is Astro the robot.

2. **a) To find a glowing crystal on Planet Zog**

Explanation: Luna and Astro's mission was to find a glowing crystal on Planet Zog.

3. **b) Sparkling blue trees and shiny rocks**

Explanation: Planet Zog was covered in sparkling blue trees and shiny rocks.

4. **b) Friendly aliens**

Explanation: Luna and Astro met friendly aliens on Planet Zog.

5. **b) A special space map**

Explanation: Luna used a special space map to find the location of the crystal.

6. **c) A riddle**

Explanation: Silky the spider asked Luna and Astro to solve a riddle.

7. **c) A star**

Explanation: The answer to Silky's riddle, "I shine in the night and guide your way," was a star.

8. **b) Colorful crystals**

Explanation: The cave on Planet Zog contained colorful crystals.

9. **c) Placed it in the power core of the spaceship**

Explanation: Luna and Astro placed the glowing crystal in the power core of the spaceship.

10. **c) Excited**

Explanation: Luna and Astro felt excited when they found the crystal.
