

Q1: Disposable vs Reusable

Q2: Outline-

Hook: Would you want the Earth to get destroyed by global warming and pollution?

Thesis: Using reusable paper towels helps by decreasing waste problems, deforestation, and helps with global warming.

Transition sentence: Reusable cloth towels are a very good option to help the earth and they are less expensive.

BP1:

Topic sentence: Using reusable cloth towels decreases waste problems

Supporting details:

- Cloth towels help have a positive impact on the environment. Paper towels produce too much waste.
- It makes about 6 million pounds of waste every day, the paper towels that we throw away everyday end up in landfills.
- Paper towels are the third largest waste contributor to deforestation and global warming.

Closing sentence: Cloth towels are easy to wash and use. This option is more eco-friendly and less expensive.

BP2:

Topic sentence: Using cloth towels would help decrease deforestation.

Supporting details:

- Many trees are cut down and forests get destroyed just to make paper towels.
- Cloth towels can be made of any fabric and can easily get the job done.
- Cloth towels are less expensive and people don't have to keep buying paper towels, cloth towels can easily be cleaned with a simple wash and are more environmentally friendly.

Closing sentence: Paper towels cause many problems on the earth, so using cloth towels will help by a significant amount.

BP3:

Topic sentence: Global warming is a huge problem and paper towels are the third largest cause for it.

Supporting details:

- Cloth towels reduce tons of waste every year that is caused by paper towels.
- It helps reduce the amount of trash in landfills and is biodegradable.
- Disposable towels release methane as they decompose which is a very dangerous greenhouse gas resulting in climate change.

Conclusion:

Ending hook: Cloth towels are very eco-friendly and using them would help the earth.

Details: It would decrease the amount of trash piling up by a significant amount.

Closing sentence: Cloth towels are an amazing choice if you're trying to save the earth.
