

Grade: 4

Category: Measurements length

Subcategory: Comparing Lengths

Write which is larger or if they are equal.

**Standard units of length:**

1 foot (ft) = 12 inches (in)

1 yard (yd) = 3 feet (ft)

1 yard (yd) = 36 inches (in)

1. Is 3 feet greater than, less than, or equal to 36 inches?
2. Which is longer, 5 feet or 60 inches?
3. Determine whether 2 yards is greater than or less than 72 inches.
4. If you have 48 inches of ribbon and 4 feet of string, which one is longer?
5. Compare 1 yard and 36 inches. Which one is larger?
6. If a pencil is 7 inches long, and a marker is 1 foot long, which one is longer?
7. A rope is 2 yards long, and a shoelace is 24 inches long. Which one is longer?

Subcategory: Comparing Lengths

Write which is larger or if they are equal.

**Standard units of length:**

1 foot (ft) = 12 inches (in)

1 yard (yd) = 3 feet (ft)

1 yard (yd) = 36 inches (in)

1. Is 3 feet greater than, less than, or equal to 36 inches? **Answer: Equal to (1 foot = 12 inches, so 3 feet = 36 inches)**
2. Which is longer, 5 feet or 60 inches? **Answer: They are equal in length. (5 feet = 60 inches)**
3. Determine whether 2 yards is greater than or less than 72 inches. **Answer: Equal to (1 yard = 36 inches, so 2 yards = 72 inches)**
4. If you have 48 inches of ribbon and 4 feet of string, which one is longer? **Answer: They are equal. (48 inches = 4 feet = 48 inches)**
5. Compare 1 yard and 36 inches. Which one is larger? **Answer: They are equal in length. (1 yard = 36 inches)**
6. If a pencil is 7 inches long, and a marker is 1 foot long, which one is longer? **Answer: The marker is longer. (1 foot = 12 inches, so 1 foot > 7 inches)**
7. A rope is 2 yards long, and a shoelace is 24 inches long. Which one is longer? **The rope is longer**
