Incorrect Question #	Why is my answer incorrect			Why is this the correct answer		
10	I got question 10 wrong because I guessed and put 7.5			C) is right because they are all equal to 5 so it's 5		
15	My answer was wrong because I got mixed up with the words			The answer is 2 because 5-3 and based off of the radius it will be 2		
50	my answer was wrong because I set up my triangle wrong			The answer is b) because I turned the decimal to $\frac{30}{\sqrt{3}}$
