Reading-In conclusion Hollywood has been remaking movies too fast. Which for most people is not a problem, but when the people who watch these movies expect a remake or a second part they expect a better version. The ^{Not the article -?} article had a problem that they were making the movies too fast and did not put as much effort into it. They put Frozen as an example, for it's next part they most likely have fewer songs and no effort into the scripts which will then tend watchers to get bored and have fewer expectations for any of the next movies.

Vocabulary-

- hyperactive. more active than normal. ✓
