7. Lucas had 69 toy cars, but he lost 24 of them. How many toy cars does Lucas have now?
8. There were 82 candies in a jar. If 17 candies were eaten, how many candies are left in the jar?

Grade: 2 **Category:** Addition: Word problems **Sub Category:** Mixed just add. and Sub (2-digit) **Worksheet #:** 22A

1. Liam had 47 marbles, but he gave 15 marbles to his friend. How many marbles does Liam have now?

Answer: Liam has $47 - 15 = 32$ marbles.

2. There were 86 students in the school gym. After lunch, 23 students went to the playground. How many students are still in the gym?

Answer: There are $86 - 23 = 63$ students still in the gym.

3. Emma had 58 stickers, and her brother gave her 24 more stickers. How many stickers does Emma have now?

Answer: Emma has $58 + 24 = 82$ stickers.

4. There were 92 apples in a basket. If 35 apples were sold, how many apples are left in the basket?

Answer: There are $92 - 35 = 57$ apples left in the basket.

5. Emily has 68 balloons, and her friend gave her 12 more balloons. How many balloons does Emily have in total now?

Answer: Emily has $68 + 12 = 80$ balloons.

6. There were 73 children at the playground. After some time, 18 children went home. How many children are still at the playground?

Answer: There are $73 - 18 = 55$ children still at the playground.

7. Lucas had 69 toy cars, but he lost 24 of them. How many toy cars does Lucas have now?

Answer: Lucas has $69 - 24 = 45$ toy cars.

8. There were 82 candies in a jar. If 17 candies were eaten, how many candies are left in the jar?

Answer: There are $82 - 17 = 65$ candies left in the jar.

Grade: 2 **Category:** Addition: Word problems **Sub Category:** Mixed just add. and Sub within 20 **Worksheet #:** 23Q

1. Emily has 8 apples, and her friend gave her 4 more. How many apples does Emily have now?
2. There were 15 candies in a jar. If 3 candies were eaten, how many candies are left in the jar?
3. Liam had 10 stickers, but he gave 6 stickers to his friend. How many stickers does Liam have now?
4. There were 12 children in the playground. After some time, 5 children went home. How many children are still in the playground?
5. Emma had 9 toy cars, and her brother gave her 2 more toy cars. How many toy cars does Emma have in total now?
6. There were 18 balloons at the party. After some time, 7 balloons popped. How many balloons are still at the party?
7. Sophia had 13 marbles, but she lost 4 of them. How many marbles does Sophia have now?
8. There were 20 candies in a bag. If 8 candies were given to friends, how many candies are left in the bag?
9. Jack had 5 toy cars, and his sister gave him 7 more toy cars. How many toy cars does Jack have now?
10. There were 16 flowers in the garden. If 9 flowers were picked, how many flowers are still in the garden?

Grade: 2 **Category:** Addition: Word problems **Sub Category:** Mixed just add. and Sub within 20 **Worksheet #:** 23A

1. Emily has 8 apples, and her friend gave her 4 more. How many apples does Emily have now?

Answer: Emily has $8 + 4 = 12$ apples.

2. There were 15 candies in a jar. If 3 candies were eaten, how many candies are left in the jar?

Answer: There are $15 - 3 = 12$ candies left in the jar.

3. Liam had 10 stickers, but he gave 6 stickers to his friend. How many stickers does Liam have now?

Answer: Liam has $10 - 6 = 4$ stickers.

4. There were 12 children in the playground. After some time, 5 children went home. How many children are still in the playground?

Answer: There are $12 - 5 = 7$ children still in the playground.

5. Emma had 9 toy cars, and her brother gave her 2 more toy cars. How many toy cars does Emma have in total now?

Answer: Emma has $9 + 2 = 11$ toy cars.

6. There were 18 balloons at the party. After some time, 7 balloons popped. How many balloons are still at the party?

Answer: There are $18 - 7 = 11$ balloons still at the party.

7. Sophia had 13 marbles, but she lost 4 of them. How many marbles does Sophia have now?

Answer: Sophia has $13 - 4 = 9$ marbles.

8. There were 20 candies in a bag. If 8 candies were given to friends, how many candies are left in the bag?

Answer: There are $20 - 8 = 12$ candies left in the bag.

9. Jack had 5 toy cars, and his sister gave him 7 more toy cars. How many toy cars does Jack have now?

Answer: Jack has $5 + 7 = 12$ toy cars.

10. There were 16 flowers in the garden. If 9 flowers were picked, how many flowers are still in the garden?

Answer: There are $16 - 9 = 7$ flowers still in the garden.

Grade: 2 **Category:** Addition: Word problems **Sub Category:** More mixed addition and subtraction **Worksheet #:** 23A

1. Sarah had 13 stickers, but she gave 4 stickers to her friend. How many stickers does Sarah have now?
2. There were 18 candies in a jar. If 6 candies were eaten, how many candies are left in the jar?
3. Liam had 15 toy cars, and his friend gave him 7 more toy cars. How many toy cars does Liam have in total now?
