When the How to Train Your Dragon live action remake was a surprise to many. Statistically Most of the time it will take Hollywood decades before they are ready to go on a straight-up rerun of a popular movie. The last How to Train Your Dragon movie was made four years ago so it was a massive shock when the live action remake was made. And because of this, some articles and other people are upset at Disney for this because this means most likely instead of sequels to movies there might be a remake instead. This is why the How to Train Your Dragon live action remake was a huge surprise to many.

Hyperventilate: breath at an abnormally rapid rate, increasing the rate of loss of carbon dioxide. ✓

Career Goal → how TJ will help achieve the

I want to study at TJ because of how creative it is. Additionally with its academics I can learn quickly and become smarter. It is very unique and you are able to do a lot of research there on many things. I want to go because it will expand my knowledge and I will be able to do lots of different things that will involve teamwork. Also if I study at TJ it will help me get into a good college as TJ is the #1 best high school in the U.S.A. These are the reasons why i want to attend and study at TJ goal (5)

We can represent this as a math problem

Tuesday = M

Monday = 2M

To total of minutes equals 135 minutes

$M + 2M = 3M$

Now we divide both sides by three

$3M/3$

$135/3$

$M = 45$

✓

Because 45 is the number practiced on tuesday we multiply that number by 2 and get 90
 So Julienne practiced for her dance routine for 90 minutes on monday
