

Grade: 6**Category:** Measurements**Sub Category:** Converting Miles, feet and yards**Worksheet #:** 2Q

Convert 2 miles to feet. _____

Convert 4,000 feet to miles. _____

Convert 1 mile to yards. _____

Convert 3 yards to feet. _____

Convert 5,280 feet to miles. _____

Convert 1,320 yards to miles. _____

Convert 10 miles to feet. _____

Convert 2,000 feet to yards. _____

Convert 8 miles to yards. _____

Convert 12 yards to feet. _____

Convert 15,000 feet to miles. _____

Convert 2 miles to yards. _____

Convert 1,760 yards to feet. _____

Convert 4,500 feet to miles. _____

Convert 3 miles to feet. _____

Convert 7,920 yards to miles. _____

Convert 9,000 feet to yards. _____

Convert 0.5 miles to feet. _____

Convert 6,600 yards to miles. _____

Convert 16 feet to yards. _____

Convert 2 miles to feet. Answer: 10,560 feet

Convert 4,000 feet to miles. Answer: 0.76 miles
(approximately)

Convert 1 mile to yards. Answer: 1,760 yards

Convert 3 yards to feet. Answer: 9 feet

Convert 5,280 feet to miles. Answer: 1 mile

Convert 1,320 yards to miles. Answer: 0.75 miles
(approximately)

Convert 10 miles to feet. Answer: 52,800 feet

Convert 2,000 feet to yards. Answer: 666.67 yards
(approximately)

Convert 8 miles to yards. Answer: 14,080 yards

Convert 12 yards to feet. Answer: 36 feet

Convert 15,000 feet to miles. Answer: 2.84 miles
(approximately)

Convert 2 miles to yards. Answer: 3,520 yards

Convert 1,760 yards to feet. Answer: 5,280 feet

Convert 4,500 feet to miles. Answer: 0.85 miles
(approximately)

Convert 3 miles to feet. Answer: 15,840 feet

Convert 7,920 yards to miles. Answer: 4.5 miles
(approximately)

Convert 9,000 feet to yards. Answer: 3,000 yards

Convert 0.5 miles to feet. Answer: 2,640 feet

Convert 6,600 yards to miles. Answer: 3.75 miles
(approximately)

Convert 16 feet to yards. Answer: 5.33 yards
(approximately)
