

Reading Passage: Luna's Moon Adventure (Science fiction 3)

Luna was a little girl who loved to dream about outer space. One night, as she was looking at the moon through her telescope, something magical happened. A silver spaceship landed in her backyard, and a friendly astronaut named Astro stepped out.

"Hello, Luna! Would you like to go on a moon adventure?" asked Astro. Luna was thrilled and quickly agreed. Astro handed Luna a sparkly spacesuit, and they both climbed into the spaceship.

The spaceship zoomed up into the night sky. Luna watched as Earth became smaller and smaller. Soon, they reached the moon. The moon's surface was rocky and covered with craters. Luna and Astro stepped out of the spaceship and started exploring.

They bounced around because the moon's gravity was very weak. Luna felt like she was flying! They saw shiny rocks and collected some moon dust. Astro showed Luna a special cave where glowing crystals grew. The crystals were beautiful and shone like stars.

As they walked, they met moon bunnies. These cute creatures had long ears and bounced just like Luna and Astro. The moon bunnies were friendly and gave Luna a glowing moonflower. Astro explained that the moonflower could light up the darkest nights.

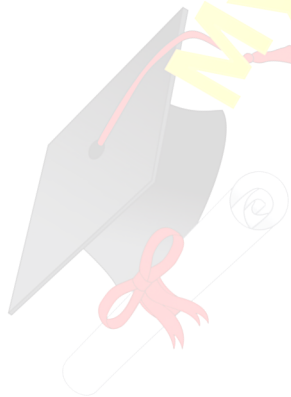

After a fun day of exploring, it was time to go back home. Luna waved goodbye to the moon bunnies and climbed back into the spaceship. The spaceship flew back to Earth and landed safely in Luna's backyard.

That night, Luna went to bed hugging her glowing moonflower. She smiled, thinking about her amazing moon adventure and her new friends on the moon.

Multiple Choice Questions

1. What landed in Luna's backyard?
 - a. A. A car
 - b. B. A spaceship
 - c. C. A helicopter
 - d. D. A hot air balloon
2. Who invited Luna on a moon adventure?
 - a. A. A fairy
 - b. B. An astronaut named Astro
 - c. C. A wizard
 - d. D. A superhero
3. What did Astro give Luna?
 - a. A magic wand
 - b. A sparkly spacesuit
 - c. A pair of wings
 - d. A bicycle
4. What did Luna see as they flew into the sky?
 - a. Mountains
 - b. Earth becoming smaller
 - c. Oceans
 - d. Forests
5. What was the surface of the moon covered with?
 - a. Trees
 - b. Sand
 - c. Craters and rocks
 - d. Water
6. Why did Luna feel like she was flying on the moon?
 - a. She had wings
 - b. The moon's gravity was very weak
 - c. She was in an airplane
 - d. She was dreaming
7. What did Luna and Astro find in the special cave?
 - a. Treasure
 - b. Glowing crystals
 - c. Magic potions
 - d. Dinosaur bones
8. Who did Luna and Astro meet on the moon?
 - a. Aliens
 - b. Moon bunnies
 - c. Robots
 - d. Dragons

9. What gift did the moon bunnies give Luna?
- a. A star
 - b. A glowing moonflower
 - c. A golden key
 - d. A magic mirror
10. How did Luna feel when she went to bed?
- a. Sad
 - b. Happy
 - c. Angry
 - d. Scared

Answers and Explanations

1. **b) A spaceship**

- Explanation: A silver spaceship landed in Luna's backyard, taking her on an adventure.

2. **b) An astronaut named Astro**

- Explanation: Astro, the friendly astronaut, invited Luna on a moon adventure.

3. **b) A sparkly spacesuit**

- Explanation: Astro gave Luna a sparkly spacesuit for their journey.

4. **b) Earth becoming smaller**

- Explanation: As they flew into the sky, Luna saw Earth becoming smaller and smaller.

5. **c) Craters and rocks**

- Explanation: The moon's surface was rocky and covered with craters.

6. **b) The moon's gravity was very weak**

- Explanation: Luna felt like she was flying because the moon's gravity was very weak.

7. **b) Glowing crystals**

- Explanation: Luna and Astro found glowing crystals in the special cave on the moon.

8. **b) Moon bunnies**

- Explanation: They met friendly moon bunnies during their exploration.

9. **b) A glowing moonflower**

- Explanation: The moon bunnies gave Luna a glowing moonflower as a gift.

10. **b) Happy**

- Explanation: Luna felt happy and smiled as she went to bed, thinking about her moon adventure.
