Incorrect Question #	Why is my answer incorrect		Why is this the correct answer			
13	I was confused on percents		B is the correct answer? because $80 \times 1.15 = 92$			
28	I calculated my answer wrong		H is the correct answer because $150 \times 0.5 = 75$			
30	I guessed because I was confused on box-and-whisker plots		F is the correct answer because the marks show that the tallest student is a girl			
33	I guessed because I was confused		D is the correct answer because you have to add all the marbles then divide it by 27			
36	I guessed because I was confused on the table and graphing		J is the correct answer because it has all of the points on the graph			
40, 41, 42, 43, 44	I don't understand it or I guessed					
47	I was confused with the graph		A is the correct answer because it adds 20 dollars an hour			

40 - J is the correct answer because I need to read the table and see where the points go

41 - B is the correct answer because you need to take $\frac{1}{3}$ away from 132

42 - G is the correct answer because you have to make $d = 234$ and you have to do that math to get the correct answer

43 - C is the correct answer because you need to look at the table and make points

44 - J is the correct answer because the domain is the x-value and 4 wasn't on there
