“A Fun-Filled Week in Sunshine City”

I am going to share an exciting story about a week-long adventure in the vibrant and sunny, Sunshine City! This trip was filled with fun, learning, and lots of new experiences.

Day 1: The journey began with a two-hour flight, soaring through the clouds until we landed in Sunshine City. After checking into our hotel, we explored the local market where we tried delicious fruits and bought handmade crafts.

Day 2: We visited the Sunshine Zoo, home to over 200 species of animals. The giraffes and pandas were the stars of the show! We learned about animal habitats and the importance of conservation.

Day 3: It was time for some history at the Sunshine Museum. We saw ancient artifacts, beautiful paintings, and even a dinosaur skeleton! Our guide taught us about different time periods and civilizations.

Day 4: The Science Center was up next, with its interactive exhibits and fun experiments. We made slime, watched a volcano eruption, and learned about space.

Day 5: We spent the day outdoors at Sunshine Park, enjoying a picnic and playing games. In the evening, we watched a play at the local theater, which was both entertaining and educational.

Day 6: A trip to the beach was a must! We built sandcastles, swam in the ocean, and collected seashells. We learned about marine life and the importance of keeping our beaches clean.

Day 7: On our last day, we visited the Sunshine Art Gallery, marveling at the artwork and even trying our hand at painting. It was a creative and fun way to end our trip.

Now, it's time for some questions to see what you've learned from our travel adventure!

Multiple Choice Questions:

How long was the flight to Sunshine City?

- A) 1 hour
- B) 2 hours
- C) 3 hours
- D) 4 hours
