Incorrect Question #	Why is my answer incorrect		Why is this the correct answer			
11	30% I guessed		49% because you have to use ratios to solve it			
28	I only guessed one instead of 2		2 and 6 would both be right			
37	C is wrong because I just guessed		A would be correct			
42	C is wrong because I picked x		B would be right because it's a value			
45	B is wrong because I guessed it		C would be right
