	Somved Prajapati	5 <sup>th</sup>	11/3/2023	Math	5 <sup>th</sup>	2008
Incorrect Question #	Why is my answer incorrect			Why is this the correct answer		
5	Because first you have to simplify and then subtract			Because I simplified and then subtracted,		
9	Because I multiplied 3 and 2 instead of adding 3 and 2, it's 10.			Because you have to add 3 and 2 and then multiply by 10.		
36	Because I added the numbers incorrectly.			Because when you add them correctly you get 16g.		
39	Because I thought it was asking how we could find out the probability.			Because G shows a question where Rodney can use his knowledge about probability.
