

**Grade6****Reading Science Fiction****The Hidden Galaxy**

Once upon a time in the distant future, humanity had reached the stars, and space travel was as common as taking a bus. The universe was vast, and there were countless galaxies to explore. Among these galaxies, there was one that was unique, hidden from the naked eye and known to only a few.

The Hidden Galaxy, as it was called, was located at the edge of the known universe. It was said that this galaxy held secrets to the origins of the universe and the potential for unimaginable power. However, getting there was not an easy task. The journey was long and filled with perils that tested the limits of human endurance and technology.

A brave crew of astronauts aboard the starship "Explorer" took on the challenge. They were determined to uncover the mysteries of The Hidden Galaxy and bring back knowledge that could benefit all of humanity. The crew consisted of Captain Sarah, the fearless leader; Dr. John, the brilliant scientist; Lily, the talented engineer; and Max, the skilled pilot.

As the Explorer journeyed through space, the crew encountered strange phenomena and challenges unlike any they had seen before. They navigated through asteroid fields, faced equipment malfunctions, and deciphered cryptic signals that seemed to be guiding them toward their destination.

Upon reaching The Hidden Galaxy, the crew was in awe of its beauty. The galaxy was filled with vibrant colors, swirling nebulas, and sparkling stars. It was a sight to behold, and for a moment, the challenges of the journey seemed to fade away.

Dr. John began his research, eager to unlock the secrets of the galaxy. Meanwhile, Lily worked tirelessly to ensure that the Explorer was in top condition, and Max skillfully maneuvered the ship through the galaxy's unique gravitational fields.

As days turned into weeks, the crew made remarkable discoveries. They found evidence of ancient civilizations, uncovered new forms of energy, and even encountered benevolent beings who shared their knowledge with the humans.

However, the journey was not without its dangers. The Hidden Galaxy was home to forces that did not take kindly to intruders. The crew had to rely on their wit, skills, and teamwork to overcome these challenges and ensure their safe return to Earth.

When they finally returned home, the crew of the Explorer were hailed as heroes. They had ventured into the unknown, faced adversity, and brought back knowledge that changed the course of human history.

The Hidden Galaxy remained a place of mystery and wonder, but now, humanity knew that even the furthest reaches of the universe were within their grasp, as long as they had the courage to explore.

#### Multiple Choice Questions:

1.What is the name of the starship in the story?

- A) Challenger
- B) Explorer
- C) Voyager
- D) Enterprise

2. Who is the captain of the crew?

- A) Max
- B) Lily
- C) Dr. John
- D) Sarah

3. What is unique about The Hidden Galaxy?

- A) It is very small.
- B) It is located at the edge of the known universe.
- C) It is very close to Earth.
- D) It is inside a black hole.

4. What did the crew of the Explorer find in The Hidden Galaxy?

- A) Gold and diamonds
- B) Evidence of ancient civilizations
- C) A new planet for humans to live on
- D) A black hole

5. What was Lily's role on the ship?

- A) Pilot
- B) Scientist
- C) Engineer
- D) Captain

6. Which of the following challenges did the crew NOT face during their journey?

- A) Equipment malfunctions
- B) Navigating through asteroid fields
- C) Photosynthesis
- D) Deciphering cryptic signals

7. What did the benevolent beings in The Hidden Galaxy do?

- A) Attacked the crew
- B) Ignored the crew
- C) Shared their knowledge with the humans
- D) Gave the crew treasures

8. What were the crew hailed for upon their return to Earth?

- A) Traitors
- B) Heroes
- C) Villains
- D) Adventurers

9. Who is the skilled pilot in the story?

- A) Lily
- B) Sarah
- C) Dr. John
- D) Max

10. What potential did The Hidden Galaxy hold?

- A) Potential for war
- B) Potential for unimaginable power
- C) Potential for new food sources
- D) Potential for time travel

1. Answer: B) Explorer *Explanation: The starship is referred to as "Explorer" in the story.*
2. Answer: D) Sarah *Explanation: The captain of the crew is mentioned as Captain Sarah in the story.*
3. Answer: B) It is located at the edge of the known universe. *Explanation: The story mentions that The Hidden Galaxy is located at the edge of the known universe.*
4. Answer: B) Evidence of ancient civilization *Explanation: The story states that the crew found evidence of ancient civilizations in The Hidden Galaxy.*
5. Answer: C) Engineer *Explanation: Lily is mentioned as the talented engineer in the story.*
6. Answer: C) Photosynthesis *Explanation: Photosynthesis is not mentioned as a challenge in the story.*
7. Answer: C) Shared their knowledge with the humans *Explanation: The story mentions that benevolent beings in The Hidden Galaxy shared their knowledge with the humans.*
8. Answer: B) Heroes *Explanation: The story states that the crew were hailed as heroes upon their return to Earth.*
9. Answer: D) Max *Explanation: Max is referred to as the skilled pilot in the story.*
10. Answer: B) Potential for unimaginable power *Explanation: The story mentions that The Hidden Galaxy held the potential for unimaginable power.*
