Incorrect Question #	Why is my answer incorrect	Why is this the correct answer					
10	I Subtracted wrong	because $5-2=3$					
15	I looked at it the wrong way	because 5 is after the decimal point so it would have to be five tenths					
16	I did not understand the question	because the zero is supposed to be before 41.					
17	I guessed	because when you divide 5 by 3 you get 0.6					
18	I rounded wrong in the wrong place	because 8 is bigger than 4 so you round up.					
19	I did not convert them into decimals	because when you convert them it is not D					
23	I did not learn the question yet.	because it changes sides.

Incorrect Question #	Why is my answer incorrect			Why is this the correct answer		
26	I meant to put F			because it looks similar		
27	Forgot what a diameter was			because a diameter passes the center point		
31	Did not know what it meant			because it only has one pair of parallel side.		
32	Did not know how to do it,			because it forms a right triangle.		
33	Did not make sense			because it has the same information		
36	Did not know what mode meant			because 25 repeated the most		
37	Did not know what to do			because it had 3 topics for evidence.

Incorrect Question #	Why is my answer incorrect			Why is this the correct answer		
38	I guessed			because you can predict it.		
39	I guessed			because you have to add them all up and divide by seven.		
40	Did not know what median meant			because you line them out from least to greatest and find the number in the middle.		
43	looked at it wrong			because 16 x 2 is 32.		
46	I guessed			because you are supposed to add		
50	Thought it meant multiplication			because you had to add
