Incorrect Question #	Why is my answer incorrect			Why is this the correct answer		
12	bc I only put 1			because there was another answer		
11	because I didn't solve it and just answered			because I have to solve it for it to be right		
30	because only matches one of the questions.			bc it matches with all the question/numbers.		
31	bc 2000 multiplying by how many painter isn't right.			the amount of Painters needs to be multiplied by the same number.		
24	because the intersection isn't greater			the range 1 to 2 is much bigger than 2		
35	B only has 20.			because D has 2 different OS		
38	because when the equation is done the sign needs to be switched to equal 0			when the signs appear it becomes - 6 instead of +
