- 1) How many months are there with 31 days?
- 2) Mia loves puzzles and wants to do one puzzle every day in January. If January has 31 days, how many puzzles will Mia complete by the end of the month?
- 3) Halloween is celebrated on October 31st. If Jessica wants to choose her costume two days before Halloween, what date should she start looking for costumes?
- 4) Emily's family loves decorating their house with holiday lights. If they start decorating on December 1st and continue for 10 days, when will they finish setting up the lights?

Grade: 3 Q Category: Time and Calendar Q Sub Category: Elapsed time on a Calendar Worksheet #: 7A

1)There are **7 months** with 31 days
2)Mia will complete **31 puzzles** by the end of January
3)Jessica should start looking for costumes on **October 29th**, as it's two days before October 31st.

4) Emily's family will finish setting up the lights on December 10th.
