It is almost Easter. Noah and Liv are decorating their easter baskets.

1. Noah and Liv's baskets are plastic and come with 3 parts. The bottom part has 5 branches. The middle part has 7 branches, and the top part has 2 branches. How many branches are there in total?

2. They have 9 easter eggs that are pink and 7 that are purple. But 3 of the pink eggs broke. How many good pink eggs are there in total?

3. Last week, they bought two bags of decorations. Each bag has 7 packets of glitter. Together with the 8 packets of glitter they bought last year, how many packets of glitter are there?

It is almost Easter. Noah and Liv are decorating their easter baskets.

4. Noah and Liv's baskets are plastic and come with 3 parts. The bottom part has 5 branches. The middle part has 7 branches, and the top part has 2 branches. How many branches are there in total?

Answer: 5+7+2+3=14

5. They have 9 easter eggs that are pink and 7 that are purple. But 3 of the pink eggs broke. How many good pink eggs are there in total?

Answer: 9-3= 6 good pink eggs

6. Last week, they bought two bags of decorations. Each bag has 7 packets of glitter. Together with the 8 packets of glitter they bought last year, how many packets of glitter are there?

Answer: 7 + 8 = 15 packets of glitter
