Grade: 2 **Category:** word problems **Sub Category:** Mixed all above   **Worksheet #:** 20Q

1. Jane had 10 stickers. She gave 3 stickers to her friend and then received 2 more from her teacher. How many stickers does Jane have now?

2. There are 8 apples in a basket. If Sarah takes 2 apples and Jack takes 3 apples, how many apples are left in the basket?

3. Sam has 5 boxes of candies. Each box contains 6 candies. How many candies does Sam have in total?

4. There are 12 birds sitting on a tree branch. If 5 birds fly away, how many birds are left on the branch?

5. A farmer planted 4 rows of carrots, and each row had 8 carrots. How many carrots did the farmer plant in total?

6. There are 20 children in a class. If 6 children go home early, and 4 more children join later, how many children are in the class now?

7. There are 5 shelves in a bookcase, and each shelf has 7 books. How many books are there in the bookcase in total?

Grade: 2   **Category:** word problems **Sub Category:** Mixed all above   **Worksheet #:** 20A

1. Jane had 10 stickers. She gave 3 stickers to her friend and then received 2 more from her teacher. How many stickers does Jane have now?
   Answer: Jane has 10 - 3 + 2 = 9 stickers.

2. There are 8 apples in a basket. If Sarah takes 2 apples and Jack takes 3 apples, how many apples are left in the basket?
   Answer: There are 8 - 2 - 3 = 3 apples left in the basket.

3. Sam has 5 boxes of candies. Each box contains 6 candies. How many candies does Sam have in total?
   Answer: Sam has 5 boxes × 6 candies/box = 30 candies in total.

4. There are 12 birds sitting on a tree branch. If 5 birds fly away, how many birds are left on the branch?
   Answer: There are 12 - 5 = 7 birds left on the branch.

5. A farmer planted 4 rows of carrots, and each row had 8 carrots. How many carrots did the farmer plant in total?
   Answer: The farmer planted 4 rows × 8 carrots/row = 32 carrots in total.

6. There are 20 children in a class. If 6 children go home early, and 4 more children join later, how many children are in the class now?
   Answer: There are 20 - 6 + 4 = 18 children in the class now.

7. There are 5 shelves in a bookcase, and each shelf has 7 books. How many books are there in the bookcase in total?
   Answer: There are 5 shelves × 7 books/shelf = 35 books in the bookcase.
