Incorrect Question #	Why is my answer incorrect	Why is this the correct answer
2	because I don't know percents.	When you do cross multiplication with 18/100, you get 700.
5	because I don't know how to do intrest rates or percents	You find 10% of 480 and you add the value with 480.
7	I didn't understand and I guessed.	you add or subtract from 4327 based on the chart.
11	I accidently did it from greatest to least.	you have to do it from least to greatest.
12	I didn't know how to find the percentage	
18	I didn't understand how to do it	you move it up vertically 6 squares.
30	I accidently put the wrong one.

31	I made a mistake while calculating my answers.	88, 92, 86, 94 all have a mean of exactly 90.
35	I guessed it because I didn't know the answer.	you simplify 20/100.
36	I didn't know how to read it.	They were asking for the highest range.
37	Because I misread the question.	Because the question says no relationship.
47	I got it wrong because I did division instead of multiplication	because there in 11 boxes in the large box and the large box = 2.75 that means each small box = d amont of money.
49	I didn4 know how to find the slope.	
		The slope is 2.
